

TESTIMONIALS

"My aide makes me feel safe and secure with all of the little things she does for me. She makes me laugh and helps me forget my aches and pains. Happier At Home has made a big difference in my life and I would recommend them to others."

"The ladies who come daily are nice, friendly, and effective. They clean up daily, make my bed, fix my lunch and make sure I take my medicines. The ladies are like friends. They are friends to my little dog who absolutely loves them. For anyone who wants or needs assistance, their service is ideal."

"After a fall and rehab, my 89 year old mom desperately wanted to remain in her home as long as possible. I didn't know where to begin. I contacted Happier At Home and met with their Geriatric Care Manager. She quickly developed a plan to keep her home. She organized everything, and was a blessing to our family. Because of her, my mom truly is "Happier At Home!"

IN HOME CARE

Getting Started

Before starting services we need to know more about you and your daily routines. We conduct a free in-home assessment, which takes about 45 minutes. We will learn about you or your loved one's lifestyle, medical conditions, personality and the kind of assistance needed that will help

them to remain in their home and independent.

Our complimentary assessment will enable us to write a Care Plan. The Care Plan is a customized comprehensive plan to meet your loved one's psychological, social, safety, and physical needs. We fully explain the services available, answer any questions, and help with the important care decisions faced by the family and loved one in need. Then the best caregiver is matched to the senior's needs and follow up supervision ensures that the plan is well-implemented. We'll talk about the possibilities of coverage by Long Term Care Insurance and Veteran's Benefits.

We Will Discuss:

- Health challenges
- Ambulation/balance & how it might be improved
- Medication compliance
- Memory concerns & wandering
- Transportation needs
- Nutrition & cooking
- Safety concerns
- Isolation issues
- Daily routines
- Cleaning & home maintenance
- Medical alert buttons
- Phones for hard of hearing

How We are Unique

- We keep the same caregiver with you for each visit!
- We are locally owned & operated by Health Service Professionals!
- We have a great employee retention rate!
- We use a computer-based clock-in system!
- Our caregivers complete our certification program
- Your one-stop-shop for all your care needs including both Geriatric Care Management and In Home Care

Our Caregivers

We are devoted to providing the most professional, reliable and friendly caregivers in the industry. Our caregivers truly have a passion for caring. We look for mature-minded caregivers that have real life experiences in caring, are independent thinkers, and have shown reliability and compassion throughout their lives. Most importantly, we would never hire a caregiver that we wouldn't trust to care for our own loved ones. We pride ourselves on matching highly qualified, compassionate caregivers to fit the personality, interests, and culture of your loved ones. Our caregivers will truly enrich your life.

Our Training

We lead the industry in training with our certification program unique to Happier At Home. We provide continued training in areas such as:

- Fall prevention
- Senior fraud prevention
- Nutrition & cooking
- Caring for a client with Alzheimer's
- Infection control
- Safety & housekeeping

GERIATRIC CARE MANAGEMENT

Our Services are Covered by Most Long-Term Care Insurance Policies

Geriatric Care Management is the process of planning and coordinating a broad spectrum of care for the elderly to improve their quality of life and to maintain their independence for as long as possible. It works to organize the best possible combination of services such as housing, home care services, socialization programs, financial and legal planning. We provide relocation

assistance, travel assistance, and coordinate door to door transfers.

Geriatric Care Managers have training in gerontology, social work, nursing or related human services field. They are professionals who not only understand what your loved one's needs, but also can arrange and monitor the implementation of those services.

Getting Started

We conduct an in-depth assessment and focus on your specific situations and needs to develop a Care Plan that focuses on the family and client's personal goals. We will monitor the Care Plan and suggest adjustments as needs change to ensure that your loved one remains safe, happy, and well cared for.

We can Help Avoid or Manage a Crisis

We help to prevent a crisis before it occurs, but if a crisis does occur, we will use our knowledge of the healthcare system for guidance, management, and support.

We act as liaisons to families living at a distance. We'll continually monitor for changing needs, and manage and attend medical appointments, providing feedback to the appropriate family members. Imagine the peace of mind you will have if your loved one is hospitalized and our professionals give personal attention to your loved one from admission, through discharge and see him safely home.

Additional Services

- Medication management & set-up
- Resource for independent, assisted & skilled nursing communities
- Coordination & monitoring of home care services
- Visits to your loved one, alerting family of problems
- Guidance to preserve financial resources
- Home safety inspection & equipment needs
- Protection from fraud
- PRI & Screen-Patient review instruments & screen that are required for assisted living and nursing home placement

"I felt helpless living hundreds of miles away from my dad. Happier At Home's Geriatric Care Manager gives me peace of mind knowing she checks in on him regularly, manages his medications, and takes him to the doctor. She is like a beacon in a storm, and I thank God for her!"
